

DINOSAUR MUNCH!

The Diplodocus

Munch is a
Diplodocus, which is
pronounced
DIP-low-DOCK-us

Diplodocus had
a long tail like
a whip

Munch!

Diplodocus
was one of
the **longest**
dinosaurs

Diplodocus
had a row of
short spines
along its back

Diplodocus means
'Double Beam' because
of the special bones
in its tail
