

Make a DINOSAUR STOMP! Mask

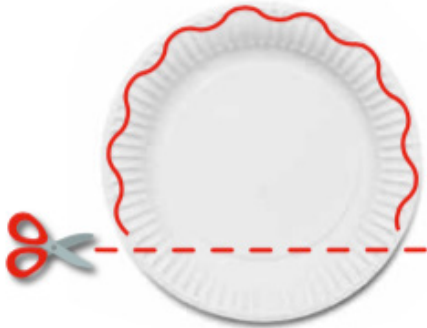

You will need:

- A paper plate
- Scissors
- Brown paint
- Glue
- Adhesive tape
- A paper straw

Grown up
help is
needed

1

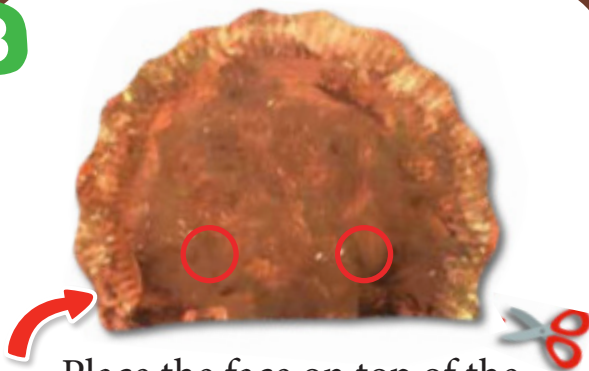

Cut the strip off the bottom of a paper plate, then cut along the round edge to make the wavy shape of Dinosaur STOMP's frill.

2

Paint your plate with brown paint and leave to dry. Then cut out Dinosaur STOMP's face from the next page. You can stick this on card if you have some.

3

Place the face on top of the plate and mark with a pencil where the eye holes will be. Ask an adult to cut them out.

4

Glue the face onto the plate. Make sure the eye holes match up. To finish, tape a straw onto the back of your mask to make a handle.

Ask a grown-up
to help you with
the scissors

Cut along
the dashed
lines

Now **wear**
your mask and
STOMP around
like a **Triceratops!**

STOMP!
