

DINOSAUR CHEW!

The Iguanodon

Chew is an
Iguanodon, which
is pronounced
Ig-WHA-non-don

Iguanodon had a
long narrow head and
a **hard beak** to cut
up its food

Iguanodon had a very
stiff tail that **stuck straight
out** from its back and didn't
drag along the ground

Chew!

Iguanodon
had **spikes** on their
thumbs that they
used for defence

Iguanodon had
powerful **back legs** and
feet with **three toes**
