

DINOSAUR SQUEAK!

The *Compsognathus*

Squeak is a
Compsognathus,
which is pronounced
Komp-sog-NATH-us

Compsognathus had
large eyes that helped it
search for food

Compsognathus
had a mouth full of **small,**
sharp, curved teeth

Squeak!

Compsognathus
was one of the
smallest known
dinosaurs

Compsognathus walked
on the **tips** of its toes
rather than on the
flat of its foot
